Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 03 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy at first, becoming brighter for most later.

Today:
A dull and cloudy start for much of the region, with some spots of drizzle possible, especially towards the coast. Brightening up for most through the afternoon, but some eastern parts staying cloudy. Maximum temperature 18 deg C (64 deg F).

Tonight:
Cloud again spreading westwards through the night. This may be thick enough in some eastern areas to give some light rain or drizzle. Minimum temperature 12 deg C (54 deg F).

Saturday:
Staying largely cloudy but dry through Saturday. Brighter spells are most likely in the west by the afternoon, with some brief sunny spells possible. Turning cloudier into the evening. Maximum temperature 19 deg C (66 deg F).

Outlook for Sunday to Tuesday:
Mainly dry Sunday with a mix of bright or sunny spells. Overnight cloud and occasionally heavy rain Monday morning, drier and brighter later. Mainly dry with sunny spells Tuesday.
